

PORTAL QA · ROUND 4

Ops page regression check + status update

Round 4 status: "+ Request time off" CTA color shipped (now renders in brand blue, matching the four-tier highlight hierarchy). One new gap: the role filter chips on Time off Schedules show raw snake_case IDs instead of formatted labels. Same bug class as round 1 Analytics #1, different surface.

Round 4: **1** done · **1** open

Status legend: **DONE** shipped this round · **STILL DONE** shipped earlier, still working · **PARTIAL** partly shipped · **OPEN** still missing · **NO ACTION** acceptable.

This document is interactive. The build checklist on the last page lists every item still open. Click each checkbox as the dev ships it, then save the PDF.

Still open

What still needs work. Items tagged **[NEW]** surfaced fresh in round 4 (and weren't on the round 2 or round 3 lists).

OPEN

NEW

#2. Time off Schedules role filter chips show raw snake_case IDs

Where it stood: Not flagged previously (this surface wasn't audited in earlier rounds).

Round 4 status: Filter chips above the calendar render: "Admin", "Manager", "Seo_specialist", "Social_media", "Team_member". The first two are formatted, the next three are raw snake_case role IDs that should display as "SEO Specialist", "Social Media", "Team Member". Same bug class as round 1 Analytics #1 (which is now fixed there). Display layer regression on this surface.

What's left: Apply the same role-formatting helper used on the Analytics Anyone filter and the Team workload list. Maps role IDs (team_member, seo_specialist, social_media) to their formatted display labels.

Done

Items shipped (this round or earlier) and still working. Listed for the record so we agree on what closed.

MED

DONE

#1. "+ Request time off" CTA renders in brand blue

Where it stood: Round 3 wiring W8: button rendered in coral/orange instead of the 121 Group brand blue.

Round 4 status: Button is now solid blue (#0077C8). Matches tier 1 of the four-tier highlight hierarchy used elsewhere. Done.

Build checklist

Every still-open and partial item from above. Tick each as it ships.
