

PORTAL QA · ROUND 4

Service kanban boards regression check + status update

Round 4 status: both round 3 wiring items shipped. Column naming matches our build ("Needs Review"), and "+ Add a card" only renders in the To Do column. Service kanban is in good shape.

Round 4: **2** done · **0** open

Status legend: **DONE** shipped this round · **STILL DONE** shipped earlier, still working · **PARTIAL** partly shipped · **OPEN** still missing · **NO ACTION** acceptable.

This document is interactive. The build checklist on the last page lists every item still open. Click each checkbox as the dev ships it, then save the PDF.

Done

Items shipped (this round or earlier) and still working. Listed for the record so we agree on what closed.

LOW

DONE

#1. Fourth column renamed to "Needs Review"

Where it stood: Round 3 wiring W6: service kanban labeled the fourth column "Review". Portal's own Ops board labeled the same stage "NEEDS REVIEW". Inconsistent within the portal.

Round 4 status: Service kanban now shows "Needs Review" matching Ops. Done.

MED

DONE

#2. "+ Add a card" only on the To Do column

Where it stood: Round 3 wiring W7: "+ Add a card" button rendered at the bottom of every column on service kanban. Ops board correctly limited it to To Do; rule wasn't applied to service boards.

Round 4 status: Service kanban now matches the rule: "+ Add a card" only at the bottom of To Do. Other columns (In Progress, Blocked, Needs Review, Done) have no add affordance. Done.
